

4. Vocabulary: *locomotor mortis*

locomotive: 1. Of or relating to travel, 2. A self-propelled vehicle that runs on rails and is used for moving railroad cars (such as a steam locomotive).

locomote: to move about (animals locomote; trees don't).

locate: To find, place or indicate where something is (locate a missing person, locate a house in a certain town).

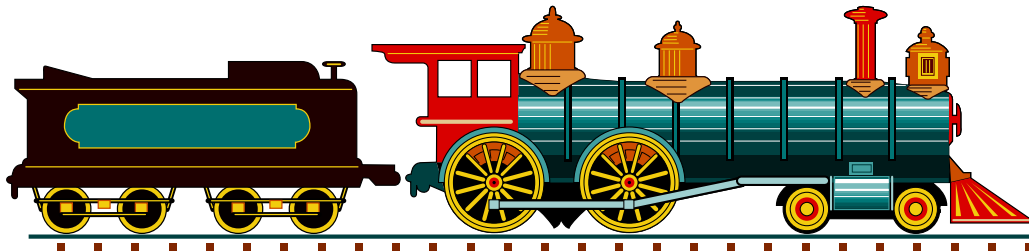

local: of or relating to a certain place or the area around you (the local schools, a local doctor).

relocate: to locate again; to establish in a new place (relocated refugees from a war; relocate yourself when your family moves).

dislocate: To put out of place; to separate a bone from its usual connection with another bone (dislocated shoulders, knees and fingers).

allocate: to set aside or designate for a special reason (allocate money for books, allocate food for children).

locale: location, especially connected to a certain event (the locale for the buzzard festival).

Write the definition for: **relocate**

Something being relocated

What are three reasons you might have to relocate something?
